

cabolo[®] one

From spoken words to decision-making, in real time

AI meeting assistant. Offline. Multilingual. Yours.

Record, summarise and analyse, without a single byte leaving your infrastructure.

RECORD · TRANSCRIBE · TRANSLATE · SUMMARISE · ASK · ARCHIVE

**YOUR MEETINGS.
YOUR INSIGHTS.
YOUR DATA,
IN YOUR HANDS.**

cabolo.com

Every meeting, captured in full. Every word, kept on your premises with **CABOLO®**.

The real work starts when the meeting ends.

Rewinding recordings. Drafting minutes. Hours spent finding a single decision.

The moment data leaves your infrastructure, control leaves with it.

When content is sensitive, a third-party cloud is not a convenience, it is a liability.

*Works for you.
Completely offline*

One device. Always within reach.

It records, transcribes and translates in over 40 languages, identifies every speaker, and archives everything, instantly.

Air-gapped by design. Your data never leaves the room.

*Plug in. Sit down.
Let it work.*

From microphone to minutes, everything stays inside the device.

CABOLO® One combines real-time recording with onboard AI processing, turning meetings and documents into transcripts, summaries, reports, and strategic insights, without touching the cloud.

Ready to use. Immediately.

40⁺

languages supported in multilingual mode

0%

data sent to the cloud, by design

100⁺

distinct speakers recognisable per device

40⁺

years of speech intelligence engineering behind it

cabolo® one

A single secure device, delivering intelligence you can act on.

The AI inside CABOLO® One goes further.

It summarises meetings, builds your action points, surfaces key insights in real time, and answers questions about any session in your archive.

An AI assistant that works with you. On your terms.

SECURITY

Strategic data is processed onboard.

Everything stays where it belongs. No cloud. No external services. No exceptions.

PRODUCTIVITY

From meeting to deliverables in minutes.

Minutes, summaries, action points and insights, all done automatically, ready to share immediately.

TRACEABILITY

Nothing forgotten. Everything archived.

Audio, video and text indexed word by word; so any decision, any detail is one search away.

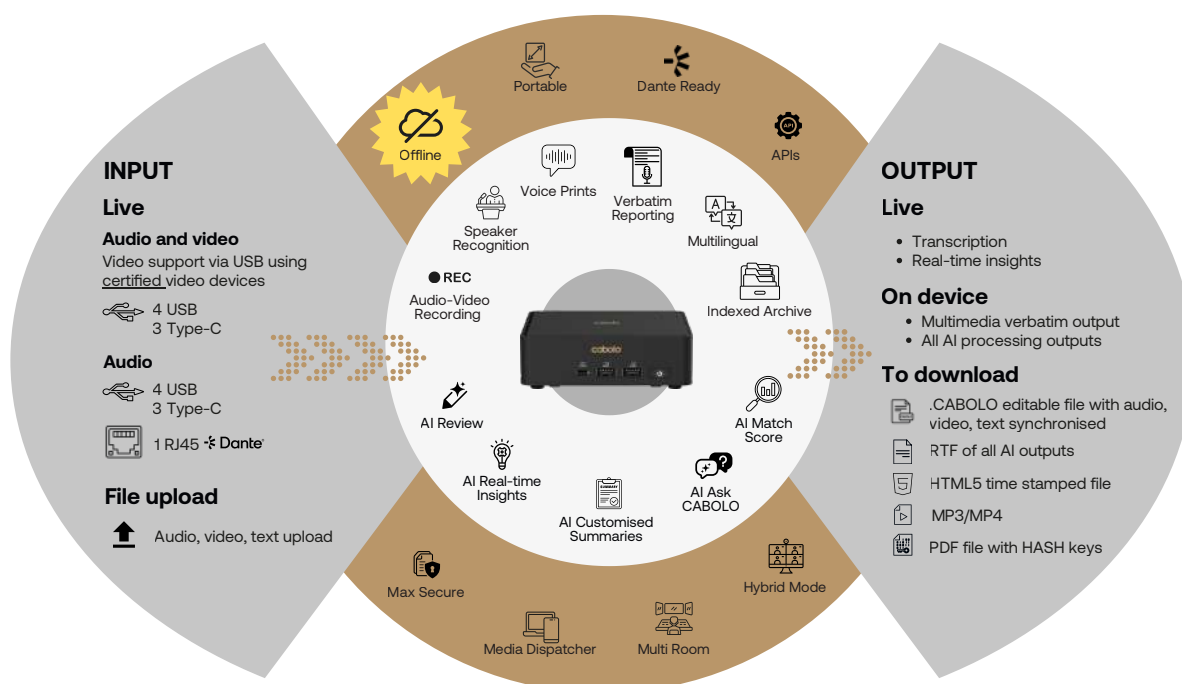

CLARITY

Clear costs from the start.

No uncontrolled token consumption. No end-of-quarter surprises. The device is yours.

Every capability. One device.

*Diagram based on the CABOLO® One AI PREMIUM version. Features and functions available may vary depending on the version selected.

cabolo® one

Go beyond transcription.

Intelligence you can act on.

Live insights

Key points surface on screen in real time as the conversation unfolds, no one misses a critical point.

Ask CABOLO®

Ask anything about any meeting or document. The information you need, in one click, always offline, always secure.

Smart summaries

No drafting. No chasing notes. Full minutes, summaries and action points, ready the moment the meeting ends.

Custom vocabulary

Train CABOLO® on your sector's terminology, product names and acronyms, for outputs that speak your language.

PROFESSIONAL EDITING · SYNCHRONISED & OFFLINE

CABOLO® Syncrodoc

A patented plug-in that brings your transcripts to life, with synchronised audio playback and point-and-click navigation, directly inside MS Word.

Integrated audio-video player with continuous playback

Audio, video, and text synchronised at word level

Export to all Word-compatible formats

Compatible with foot pedals and headsets

Where discretion is not optional.

BOARDS & EXECUTIVE COMMITTEES

Confidential meetings, documented in real time.

CABOLO® One captures, documents, indexes and archives every session, including the most sensitive board meetings and executive reviews. Minutes and summaries are shareable within minutes, so everyone stays aligned on the decisions that matter.

LEGAL AND PUBLIC SECTOR

Data stays where it belongs.
Work continues without interruption.

For organisations bound by data-residency rules, professional secrecy or classified information mandates, CABOLO® One delivers modern AI productivity without the compromises of cloud or third-party processing.

RESEARCH · INTERVIEWS

Meeting notes that write themselves. In minutes.

Note-taking during interviews, focus groups and qualitative research consumes hours. CABOLO® One produces accurate, multilingual transcripts and structured summaries while you stay focused on the conversation.

PROCUREMENT & FINANCIAL MANAGEMENT

An investment you can plan for.
Not a meter that keeps running.

Most AI tools bill by usage. Every question asked, every document analysed, every meeting processed adds to an invoice that is impossible to predict. With CABOLO® One, the intelligence is yours. Cost is fixed. No more surprises.

Forty years of speech intelligence, in one unique device.

For over 40 years, we have been at the forefront of speech technology. Today, CABOLO® brings that expertise into a single offline, AI-powered device, trusted by public and private sector organisations to protect what is said, and unlock what it means.

cabolo® one

YOUR MEETINGS. YOUR DATA. YOUR CONTROL.
